

Title X Family Planning:

Designed by Communities, FOR THE Health of Communities

Title X (ten) is the nation's only program dedicated solely to providing family planning care to individuals in communities across the country, including those who are **low-income, under-insured, uninsured individuals, OR** who may otherwise lack access to care.

Why We Need to #ProtectTitleX

Title X funds can be used to support:

STAFF TRAINING

INFRASTRUCTURE

WORKFORCE

PATIENT CARE

For many,
a family
planning provider
is their only
source of care.

Patients use **Title X** services for:

Birth Control

Counseling

STD Screening & Treatment

Cervical Cancer Screening

HIV Testing

Types of providers that receive **Title X** funding:

LOCAL HEALTH DEPARTMENTS

PRIVATE NON-PROFITS

HOSPITALS

PLANNED PARENTHOOD AFFILIATES

FEDERALLY QUALIFIED HEALTH CENTERS

National
Family Planning
& Reproductive Health Association

Title X patient demand continues to rise but funding has decreased - dropping by \$31M between **2010** and **2014**.

● **DEMAND** ● **FUNDING**

Title X is a key funding source for health centers, helping provide critical family planning care and other preventive health services to millions of women and men each year.

6 out of **10**

women who turn to **Title X** say it is their regular source for care.

Title X fills a growing need for care in underserved areas, including rural communities.

When we keep **Title X** strong, we keep America strong.

#ProtectTitleX

▶ **Title X** funding is both good for health and has saved millions in taxpayer funds.
