

# Patient-Centered Specialty Practice Readiness Assessment

#### Daryn Eikner

Vice President, Health Care Delivery National Family Planning & Reproductive Health Association

#### Melissa Kleder

Manager, Health Care Delivery National Family Planning & Reproductive Health Association

October 6, 2015

### **NCQA Programs**

- Patient-Centered Medical Home mechanism to standardize patient-centered care in primary care settings.
- Patient-Centered Specialty Practice
   created to improve communication between specialists and primary care providers.
- Patient-Centered Connected Care created to broaden coordination to include providers of episodic care, like urgent care, SBHCs, & retail clinics

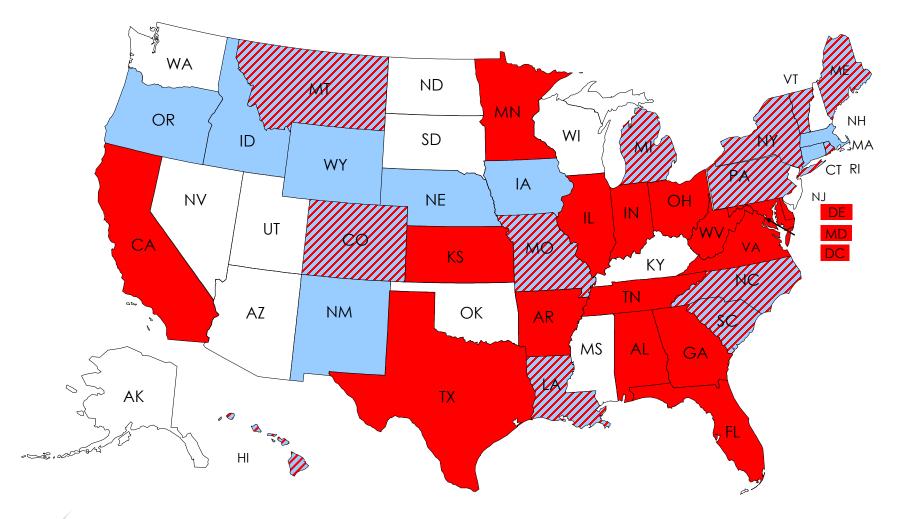

# The Leadership Learning Collaborative

| Organization                            | Location and Size   | Recognition<br>Type | Recognition<br>Received |
|---|---|---------------------|-------------------------|
| Adagio Health                           | Located in Pittsburgh, PA<br>Serves over 100,000 women<br>and their families every year<br>in 55 sites across 27 counties | PCSP<br>multi-site  | Application pending     |
| Maine Family<br>Planning                | Located in Augusta, ME<br>Serves nearly 30,000 women<br>and teens annually in 45<br>health centers statewide              | PCMH<br>single site | PCMH Level 3            |
| Public Health<br>Seattle King<br>County | Located in King County, WA<br>Serves approximately 12,000<br>individuals per year across 7<br>sites                       | PCSP<br>single site | PCSP Level 3            |
| MIC Women's<br>Health Services          | Located in New York, NY<br>Serves 4,500 low-income,<br>high risk individuals annually                                     | PCSP<br>two sites   | PCSP Level 2            |

### **Benefits**

- Improved patient care and coordination
- A more favorable standing with insurance plans
- A framework for quality improvement and innovation
- A platform to build new partnerships with primary care
- An opportunity to provide professional development to staffs

# 38 States Use or Require NCQA PCMH for Public and Private Initiatives

#### **Standard**

- A fundamental quality concept
- There are 6 PCSP Standards

#### **Element**

- A specific aspect of the Standard
- Some Elements are **must-pass**; an organization must score at least 50% on must-pass Elements to receive Recognition
- PCSP has 22 Elements; 5 are must-pass

#### **Factor**

- A process, task, or metric that demonstrates quality
- Critical Factors are of particular importance; Critical Factors
  within PCSP are mandatory to receive more than minimal points,
  or for some Factors, any points in an Element
- PCSP has 155 Factors; 4 are Critical Factors

# PCSP 1: Track and Coordinate Referrals

#### The practice has:

- formal and informal agreements and specified methods of communication with PCPs and other referring clinicians;
- a monitored process to track referrals that includes consideration of the urgency and type of referral; and
- a monitored process to ensure a timely response to PCPs, referring clinicians, and patients.

# PCSP 2: Provide Access and Communication

- To provide access, the practice has a written process, defined standards, and demonstrates that it monitors against those standards.
- Patients have access to culturally and linguistically appropriate services and clinical advice.
- The focus is on team-based care with trained staff.

# PCSP 3: Identify and Coordinate Patient Populations

#### The practice:

- collects demographic and clinical data for population management;
- assesses and documents patient risk factors; and
- identifies patients for proactive reminders.

### **PCSP 4: Plan and Manage Care**

#### The practice:

- assesses patient/family selfmanagement abilities;
- works with patient/family to develop a self-care plan and provide tools and resources, including community resources; and
- reconciles patient medications at visits and post-hospitalization.

# PCSP 5: Track and Coordinate Care

#### The practice:

• tracks, follows-up on, and coordinates tests, referrals to secondary specialists, and care at other facilities (e.g., hospitals); and

manages care transitions.

# PCSP 6: Measure and Improve Performance

#### The practice:

- uses performance and patient experience data to continuously improve;
- tracks utilization measures such as rates of hospitalizations and ER visits;
- identifies vulnerable patient populations; and
- demonstrates improved performance.

## **PCSP Scoring Summary**

| Recognition<br>Levels | Required<br>Points | Must-Pass Elements   |
|-----------------------|--------------------|--|
| Level 1               | 25-49<br>points    | • 5 of 5 Elements are  |
| Level 2               | 50-74<br>points    | <ul><li>required for each level</li><li>Score for each Must-Pass</li></ul> |
| Level 3               | 75-100<br>points   | Element must be ≥ 50%  |

| Points | Standard/Element                       | Must-Pass |
|--------|--|-----------|
| 22     | PCSP 1: Track and Coordinate Referrals |           |
| 9      | Element A: Referral Process and        | ✓         |
|        | Agreements                             |           |
| 5      | Element B: Referral Content            |           |
| 8      | Element C: Referral Response           | ✓         |
| Points | Standard/Element                       | Must-Pass |
| 18     | PCSP 2: Provide Access and             |           |
|        | Communication                          |           |
| 5      | Element A: Access                      |           |
| 2      | Element B: Electronic Access           |           |
| 4      | Element C: Specialty Practice          |           |
|        | Responsibilities                       |           |
| 2      | Element D: Culturally & Linguistically |           |
|        | Appropriate Services                   |           |
| 5      | Element E: The Practice Team           | ✓         |

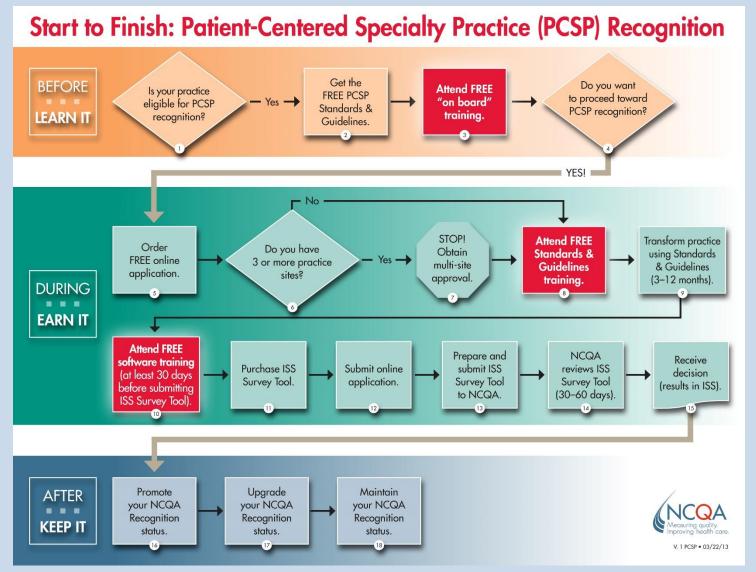

| Points | Standard/Element                               | Must-Pass |
|--------|--|-----------|
| 10     | PCSP 3: Identify and Coordinate Patient        |           |
|        | Populations                                    |           |
| 3      | Element A: Patient Information                 |           |
| 4      | Element B: Clinical Data                       |           |
| 3      | Element C: Coordinate Patient Populations      |           |
| Points | Standard/Element                               | Must-Pass |

| Leadership                                  |  | Low |   |   |   |
|---|--|-----|---|---|---|
|   |  | 2   | 3 | 4 | 5 |
|   |  |     |   |   |   |
| There is strong leadership support for PCSP |  |     |   |   |   |
| Recognition, including both executive       |  |     |   |   |   |
| leadership and the board (if applicable).   |  |     |   |   |   |
| Leadership understands the benefits of      |  |     |   |   |   |
| PCSP Recognition.                           |  |     |   |   |   |
| Leadership is knowledgeable of the time     |  |     |   |   |   |
| and resources necessary for the PCSP        |  |     |   |   |   |
| Recognition application process.            |  |     |   |   |   |
| Leadership has approved the time and        |  |     |   |   |   |
| resources necessary for the PCSP            |  |     |   |   |   |
| Recognition application process.            |  |     |   |   |   |
| Total Score                                 |  |     |   |   |   |
|   |  |     |   |   |   |

## Organizational Assessment

| Organizational Cultura   | Low |   |   |   | High |
|--|-----|---|---|---|------|
| Organizational Culture   | 1   | 2 | 3 | 4 | 5    |
|  |     |   |   |   |      |
| Our organization's culture supports a patient-centered care philosophy.    |     |   |   |   |      |
| Our organization's culture supports the goal of care coordination.         |     |   |   |   |      |
| Our organization's culture is one that is open to and prepared for change. |     |   |   |   |      |
| Total Score  | 2   |   |   |   |      |

# Organizational Assessment

| Organizational Capacity                        |  | Low |   |   |   |
|--|--|-----|---|---|---|
|  |  | 2   | 3 | 4 | 5 |
|  |  |     |   |   |   |
| An electronic health records (EHR) system is   |  |     |   |   |   |
| in use.  |  |     |   |   |   |
| Our organization has implemented               |  |     |   |   |   |
| Meaningful Use.                                |  |     |   |   |   |
| Our organization has a patient referral system |  |     |   |   |   |
| is in place, either formal or informal.        |  |     |   |   |   |
| The time is right for the organization to      |  |     |   |   |   |
| pursue PCSP Recognition.                       |  |     |   |   |   |
| Our organization's policies are written down   |  |     |   |   |   |
| and regularly reviewed.                        |  |     |   |   |   |
| Our organization's protocols are written       |  |     |   |   |   |
| down and documented.                           |  |     |   |   |   |
| Total Score                                    |  |     |   |   |   |

# Organizational Assessment

| Staff Capacity   |  | Low |   |   |   |
|--|--|-----|---|---|---|
|  |  | 2   | 3 | 4 | 5 |
|  |  |     |   |   |   |
| Our organization has a strong, detail oriented project manager who understands operations and who is available to manage                   |  |     |   |   |   |
| the Recognition process.   |  |     |   |   |   |
| Our organization has a team of clinical, operation, IT, and financial professionals that is available to be a part of Recognition process. |  |     |   |   |   |
| Staff have time and the expertise to provide training on new policies and procedures to other staff for PSCP Recognition.                  |  |     |   |   |   |
| Total Score  |  |     |   |   |   |

# **Assessment Scoring**

The following scores indicate that your organization is a good position to begin the Recognition process:

- Leadership Score 16 to 20
- Organizational Culture Score of 12 to 15
- Organizational Capacity Score of 20 to 30
- Staff Capacity Score of 12 to 15
