Denver Health

An innovative healthcare system that is a model of success for the nation.

OUR AREAS OF FOCUS

-  **Clinical Care**
Highest quality, low cost provider*
-  **Education**
Academic center teaches the next generation of healthcare workers.
-  **Research**
Ongoing, leading-edge research

Community Health Centers

Offering **total family care** in 8 neighborhood centers where families need it the most

Public Health

Keeps the public safe through tracking communicable disease and promoting healthy behaviors

Rocky Mountain Regional Trauma Center

Region's top Level I Trauma Center for adults and Level II Center for children = **whole family care**

School-Based Health Centers

Keeping kids in school by providing vital health care to DPS students through **16 in-school clinics**, free of charge

Rocky Mountain Center for Medical Response to Terrorism

Working every day to plan for the "what if" for **5 states**

Denver Health Medical Center

One of Colorado's busiest hospitals, ranked in **top 5%** for inpatient survival annually since 2011

Denver Health Medical Plan, Inc.

Keeping our community healthy by providing healthcare insurance to **77,000+**

Denver Health Foundation

Provides **additional resources** that bridge the gap financially to fund special projects and specific needs

Regional Poison Control Center

Trusted experts for multiple states and **over 100** national and international brands

911 Response

Operates Denver's emergency medical response system, **the busiest in the state**

NurseLine

Registered nurses advising on medical information, home treatment, and when to seek additional care, giving patients **peace of mind 24/7**

Denver Cares

Provides a **safe haven** and detox for public inebriants

Correctional Care

Providing **medical care to prisoners** in Denver's jails and via telemedicine

Serving Adolescents

Title X at 8 community health centers, women's care

- 27% of family planning clients less than 19 yrs. old (> 2,000 youth)
- Majority have Colorado Medicaid, some uninsured or commercial
- High volume of providers trained in LARC

16 School-Based Health Centers

- Serve more than 9,000 students annually
- Health Education Program averages 2,700 students per year
- Preventative care, clinical services, STI testing, contraception

Health Educator Model

Started with School-Based Health Education Program

- 1:1 confidential visits
- 26% of students male; approx. 9% identify as LGBTQ
- 8 health educators

Led to replication in Title X community health centers

- Facilitate informed choices for clients of all ages
- 5 health educators
- Paired with medical providers in health centers

High uptake of LARC across school & community health centers

Accessing Title X Health Educators

- Scheduled or walk-in family planning, contraception, pregnancy test visit with Health Educator
- Visit primary care provider for medical purpose (non-family planning) - request contraception, info or desire new method
- Annual or well visit for adolescents - provider requests Health Educator to provide contraceptive education & review methods
- Health Educator: time & knowledge to discuss methods w/patients
