

ABOUT

National Family Planning & Reproductive Health Association

NFPRHA envisions a nation where all people can access high-quality, client-centered, affordable, and comprehensive family planning and sexual health care from providers of their choice.

The National Family Planning & Reproductive Health Association (NFPRHA) is a non-partisan 501(c)3 membership association that advances and elevates the importance of family planning in the nation's health care system and promotes and supports the work of family planning providers and administrators, especially in the safety net.

Representing more than 900 members that operate or fund 3,500 health centers in the US, NFPRHA conducts and participates in research; provides educational subject matter expertise to policy makers, health care providers, and the public; and offers its members varying levels of capacity-building support aimed at maximizing their effectiveness and financial sustainability as providers of essential health care.

NFPRHA's Membership

NFPRHA's core members are publicly funded family planning organizations serving those who might otherwise lack access to care – the nation's low-income, under-insured, and uninsured women and men.

- Title X grantees
- State health departments
- Federally qualified health centers
- Family planning councils
- Planned Parenthood affiliates
- Local health departments
- Medicaid family planning administrators
- County health departments
- Private, not-for-profit agencies

FAMILY PLANNING BY THE NUMBERS

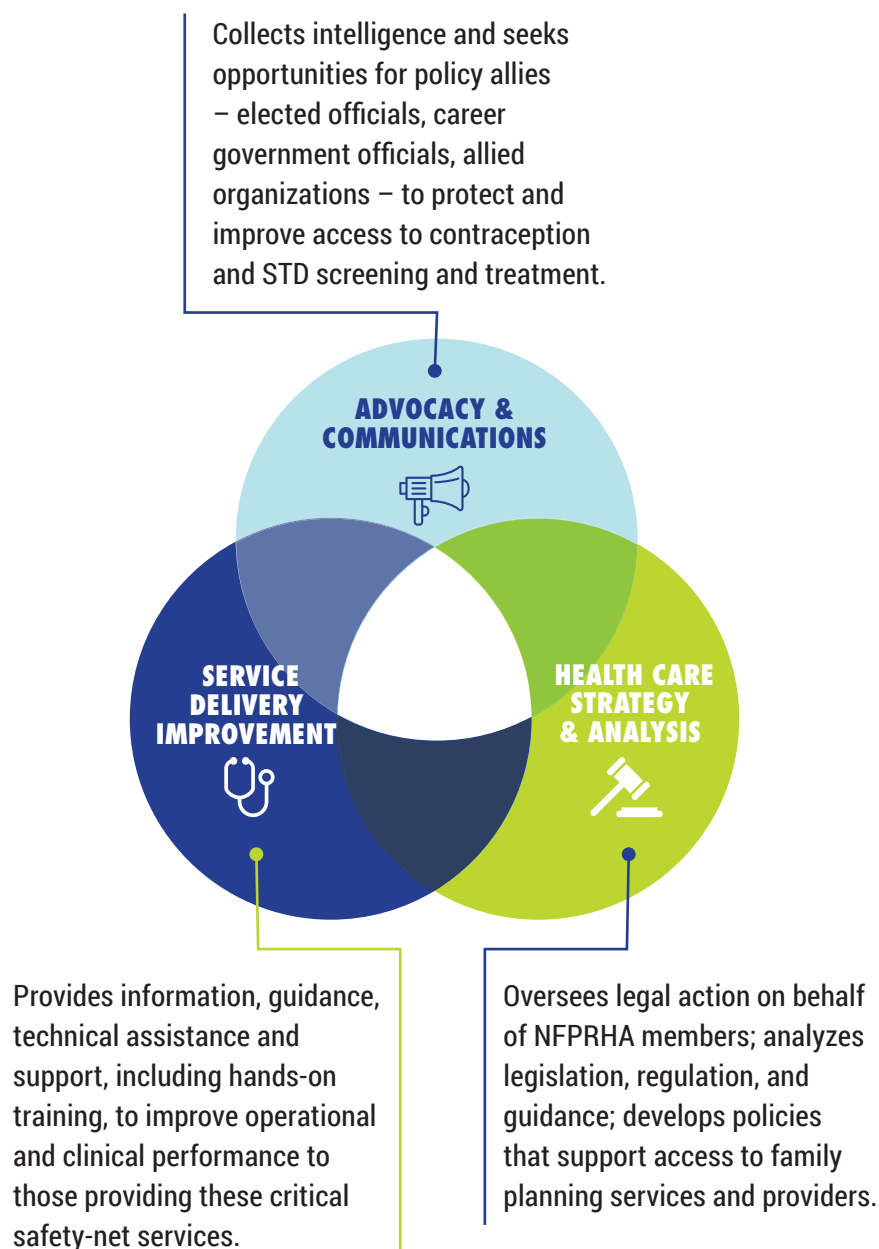

20 million women are **in need** of publicly funded contraceptive care.

In a given year, more than **5 million** women across the US **rely** on the family planning **safety net**.

Publicly funded family planning services helped women avoid about **2,000,000** unintended pregnancies, which would have resulted in nearly **1,000,000** unintended births and nearly **700,000** abortions in a single year.

Services provided at publicly funded family planning visits have **saved** the federal and state governments a total of **\$13.6 billion**.

NFPRHA leverages the collaboration and integration of its program areas of **Advocacy & Communications**, **Health Care Strategy & Analysis**, and **Service Delivery Improvement** to address both equal access for all who need care, and to sustain the viability of the safety net.

PUBLIC HEALTH PROGRAMS THAT SUPPORT NFPRHA MEMBERS

The list of federal programs includes, but is not limited to:

- Title X (ten) Family Planning
- Medicaid and Medicaid family planning expansions
- Title V (five) Maternal and Child Health grant
- Section 330 Federally Qualified Health Center program
- Women, Infants, and Children nutrition program (WIC)
- Centers for Disease Control and Prevention 318 STD Prevention grant
- Temporary Assistance to Needy Families program (TANF)
- Ryan White Act
- Title XX (twenty) Social Services Block grant
