

Title X-funded health centers helped women avoid one million unintended pregnancies in 2013, which prevented 501,000 unplanned births and 345,000 abortions.

Despite these positive health impacts, federal funding for Title X has shrunk, and now fewer low-income and uninsured people across the country, and in **Connecticut**, are able to access family planning and sexual health services funded by Title X.

# WHY TITLE X MATTERS

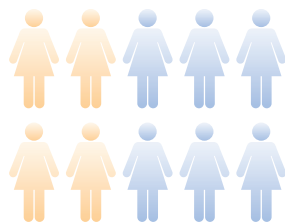

I rely on my provider to provide quality care when I need it.

My provider is trustworthy and supportive. It's where I prefer to go to get the high-quality health care I count on.

**CONFIDENTIAL**

Title X guarantees confidentiality protections that cannot be found elsewhere.

**6** out of **10** women who turn to Title X family planning say it is their regular source for care.
