

Title X-funded health centers helped women avoid one million unintended pregnancies in 2013, which prevented 501,000 unplanned births and 345,000 abortions.

Despite these positive health impacts, federal funding for Title X has shrunk, and now fewer low-income and uninsured people across the country, and in North Dakota, are able to access family planning and sexual health services funded by Title X.

	FY 2010	FY 2011	FY 2012	FY 2013	FY 2014	FY 2015	Net Change
<b>N A T I O N A L</b>							
Funding	\$317.5 M	\$299.4 M	\$293.9 M	\$278.3 M	\$286.5 M	\$286.5 M	-\$31M
Patients	5,224,862	5,021,711	4,763,797	4,557,824	4,129,283	4,018,015	-1,206,847

## CONSEQUENCES OF FUNDING LOSSES

**1,300**  
more women in need of publicly funded contraceptive services and supplies

**24%**  
decrease  
in the network's capacity to meet the need for publicly funded family planning services

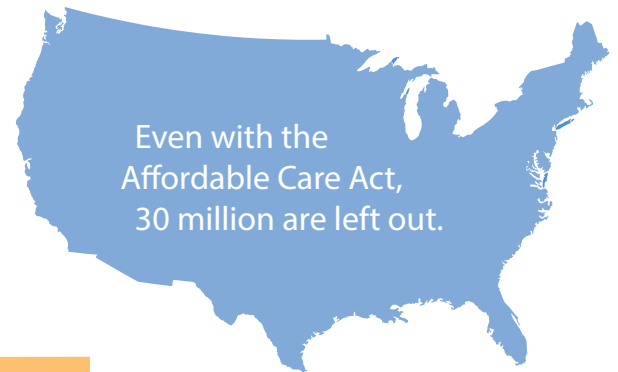

Fewer Patients Served  
**41%**

# WHY TITLE X MATTERS

Many health centers in North Dakota have had to reduce hours and experienced turn over in clinicians due to the part-time work. Some clinics have had to close due to a lack of clinicians.

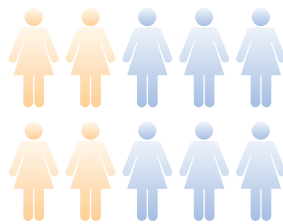

I rely on my provider to provide quality care when I need it.

My provider is trustworthy and supportive. It's where I prefer to go to get the high-quality health care I count on.

**CONFIDENTIAL**

Title X guarantees confidentiality protections that cannot be found elsewhere.

**6** out of **10** women who turn to Title X family planning say it is their regular source for care.
