Title X-funded health centers helped women avoid one million unintended pregnancies in 2013, which prevented 501,000 unplanned births and 345,000 abortions.

Despite these positive health impacts, federal funding for Title X has shrunk, and now fewer low-income and uninsured people across the country, and in Pennsylvania, are able to access family planning and sexual health services funded by Title X.

	FY 2010	FY 2011	FY 2012	FY 2013	FY 2014	FY 2015	Net Change
<b>N A T I O N A L</b>							
Funding	\$317.5 M	\$299.4 M	\$293.9 M	\$278.3 M	\$286.5 M	\$286.5 M	-\$31M
Patients	5,224,862	5,021,711	4,763,797	4,557,824	4,129,283	4,018,015	-1,206,847
<b>P E N N S Y L V A N I A</b>							
Funding	\$14,620,290	\$15,076,151	\$14,394,001	\$14,094,308	\$13,209,600	13,209,800	-\$1,410,490
Patients	317,535	300,528	273,798	255,703	215,991	210,440	-107,095

## CONSEQUENCES OF FUNDING LOSSES

Fewer Health Centers  
**24%**

**25,510**  
more women in need of publicly funded contraceptive services and supplies

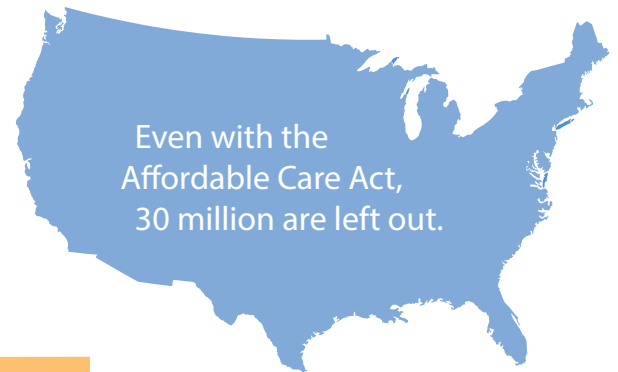

Fewer Patients Served  
**107,095**

The rising costs of services and supplies for uninsured patients along with program funding cuts and a clinician shortage has halted growth within the family planning network.

## WHY TITLE X MATTERS

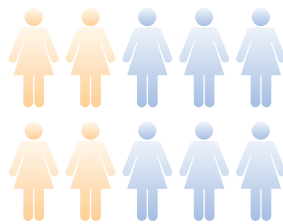

I rely on my provider to provide quality care when I need it.

My provider is trustworthy and supportive. It's where I prefer to go to get the high-quality health care I count on.

**CONFIDENTIAL**

Title X guarantees confidentiality protections that cannot be found elsewhere.

**6** out of **10** women who turn to Title X family planning say it is their regular source for care.
