Medicaid Managed Care Regulations

- Out-of-network family planning services
- Utilization controls
- Network adequacy for family planning services
- Confidentiality protections
Out-of-Network Services Asks

- Affirm enrollees’ right to seek services from out-of-network provider of their choice, for any reason, without referral
- Timely and adequate reimbursement
- Notification
Utilization Controls Asks

- Clarify plans may not impose utilization controls on any FDA-approved method
- No utilization controls within method types
- Limit use of medical necessity criteria
Network Adequacy Asks

- Specifically include family planning providers
- Ensure timely access to full range of providers
- Require plans solicit contracts with all ECPs
- Provider anti-discrimination
Confidentiality Asks

- Provide all enrollees ability to redirect plan communications
- MCOs must make clear to enrollees key information about communications that plans will use
