

# THE TITLE X FAMILY PLANNING PROGRAM IN Missouri

Missouri Family Health Council Inc. is the Title X grantee in Missouri. The diverse network of health centers supported by Title X provides a range of essential preventive health services, including breast and cervical cancer detection, screening and treatment for sexually transmitted diseases, HIV testing, and contraception, for thousands of low-income, uninsured, and underinsured individuals and families each year who would otherwise lack access to care.

Despite this important mission, federal funding for Title X has shrunk in recent years, and now fewer low-income and uninsured people in Missouri are able to access family planning and sexual health services funded by Title X.

Note: This map reflects the 2017 Title X network.
