

THE TITLE X FAMILY PLANNING PROGRAM IN New York

As of September 1, 2018, the Office of Population Affairs (OPA) provided Title X service delivery grants to Beacon Christian Community Health Center, the New York State Department of Health, Public Health Solutions, and the Floating Hospital to support access to family planning and sexual health services in New York. The diverse network of health centers supported by Title X provides a range of essential preventive health services, including breast and cervical cancer detection, screening and treatment for sexually transmitted diseases, HIV testing, and contraception, for thousands of low-income, uninsured, and underinsured individuals and families each year who would otherwise lack access to care.

Despite this important mission, federal funding for Title X has shrunk in recent years, and now fewer low-income and uninsured people in New York are able to access family planning and sexual health services funded by Title X.

Note: This map reflects the 2017 Title X network. Beacon Christian Community Health Center and The Floating Hospital became new grantees on September 1, 2018.

FUNDING AND PATIENT LEVELS

	FY2010	FY 2014	FY 2015	FY 2016	FY2017	Net Change
NATIONAL
